Please find the attached maps for the proposed Mississippi Lime sites. I will upload them to the FTP site as well. Let me know if you have any questions.

Thanks,
Chris

Another possibility would be to upload figures to the FTP site.

Chris,

Let me check in on my side and see if we were needing to share anything visual, and you do the same. I know y'all were going to check on availability of, or plans to acquire, microseismic data in the area, as well as ownership/access issues. Do you think you will want to present info that would benefit from this?

Mike

Mike,

Would it be beneficial for us to setup a LiveMeeting so we can share information and visual aids during our discussions? I don't think it would be a problem for us to set it up on our end and still use your call in numbers. Approximately how much time would you suggest we block out for this meeting?

Thanks,
Chris
